

40P-Female/Female Jumper Wires

Handy for making wire harnesses or jumper between headers on PCB's. These premium jumper wires are 20cm long and come in a 'strip' of 10 rainbow colors. They have 0.1" Female header contacts on one end and 0.1" Female header contacts on the other. They fit cleanly next to each other on standard-pitch 0.1" (2.54mm) header. You can always pull the ribbon wires off to make individual jumpers, or keep them together to make neatly organized wire harnesses. For best results, when plugging these in a line, have the sides with the 'silver latch bit' sticking out since that side is a tiny bit wider than 0.1"

SKU: [ASS-1071](#)

Brief Data:

- Multi-color ribbons of 40 wires with Female-Female connectors in 20cm lengths.
- Ideal for use with solder-less breadboard (such as MB102-830 and MB102-400), or to connect to square post headers or 0.1" pitch sockets.
- Rainbow colored ribbon cable provides the 10 standard electrical colors to color-code your connections.
- 28AWG ribbon cable can be stripped to remove individual wires. Wires can be stripped in groups to organize signals, or as individual wires.
- Contacts use tinned beryllium-copper in black plastic housings. PVC insulated ribbon cable.

The Face behind our product quality...

In a world of constant change and continuous technological development, a new or replacement product is never far away – and they all need to be tested.

Many vendors simply import and sell without checks and this cannot be the ultimate interests of anyone, particularly the customer. Every part sell on Handsotec is fully tested. So when buying from Handsontec products range, you can be confident you're getting outstanding quality and value.

We keep adding the new parts so that you can get rolling on your next project.
