

Generic

TX433-XPA100 High-Performance

Description:

The sucker mount design allows for quick, secure, and versatile installation on a variety of surfaces, making it ideal for diverse applications. Specifically tuned for the 433MHz frequency band, this antenna is a perfect fit for industrial communication systems, remote controls, and reliable wireless data transmission.

Specifications:

- Model: TX433-XPA100
- Power Source: Corded Electric
- Item model number: TX433-XPA100
- Connector: SMA-J male rotatable
- Maximum Power: 5W
- Frequency Range: 433 MHz
- Polarization: vertical polarization
- Directrional: Omni-Directrional

Features:

- 2 Meter Wire Length.
- Radome material: Metal.
- Radome colour black.
- Magnetic Base.
- Polarization: vertical
